

Adoptions From The Heart

March 18, 2020

Adoptions From The Heart stands with the world in the fight for equality and fair treatment for men, women, and children of color. The rise in hate crimes and intolerance against Asian-Americans and spray-painted slogans regarding COVID - 19 as the “Wuhan Plague” or the “Kung Flu” are being painted across predominately Asian communities.

It is now time to stop the violence, indifference, and inequality in communities of people of color. It is time to shine a light on the intolerance of American people of color and immigrants of color. It is time to take a stand against systemic racism and say enough is enough. The color of your skin or your ethnic heritage should not dictate how you are treated in America or around the world.

Adoptions From The Heart is working hard to be proactive in this movement towards equality.
