

Danielle & David

Hello!

Thank you for looking at our profile and allowing us to tell you a little about ourselves. We met in 2008 and married in 2012. Our greatest priority is family and we are so looking forward to expanding ours through open adoption.

Our Story

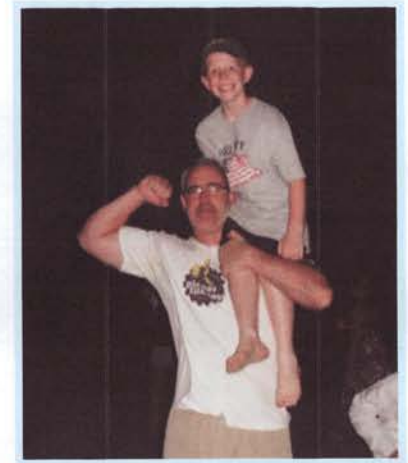

We met online in 2008 and have been together ever since. We both love to travel, try new restaurants, and spend time with our family and friends whenever possible. Our home, which we bought two years ago, has been a big focus of ours lately — there is always another project to tackle and we enjoy doing as much of the work as we can ourselves. When we're not painting or raking leaves we head up to Vermont to ski together or stay closer to home exploring our town and the surrounding areas.

About David

David is smart, funny and a loving husband. I know I can count on him no matter what; I'm thankful for him every day. He has a huge heart and is always quick to offer a helping hand to family and friends. His patience and good humor will be put to great use when he becomes a dad! David loves to ski, golf, and fish and likes to keep busy working on home improvement projects.

About Danielle

Danielle is friendly, thoughtful, and a supportive wife. She lights up a room with her smile and is a great listener who is always willing to lend an ear to a friend in need. Danielle loves to travel, read and spend time with (and spoil!) our 20-month old niece. I can't wait to see what a fantastic mom she will be to our child!

Our Home

We live in a lovely town two hours away from both Boston and New York City. Our town was named in the top 50 Best Small Towns to live in Connecticut, mainly for its great school system and community. There are several parks with playgrounds just moments away as well as a tennis and swim club just around the corner.

David's Family

David's three sisters and their families and his parents all live about an hour from us so we are able to see them at least twice a month. David's mom loves having everyone over for Sunday dinner and taking turns with his sisters hosting holiday celebrations. David has a niece who is just a few months old and everyone is so excited about welcoming another little one to the family!

Danielle's Family

Danielle's parents and her sister and family all live within 30 minutes away so we see them frequently. We like to spend time with each other on the weekends and visit long-distance relatives together when possible. We celebrate every birthday and special occasion and we all look forward to including our child in our family traditions!

Our Adventures

We have been fortunate enough to explore some interesting and beautiful places together and look forward to sharing future travel adventures with our child. Danielle grew up visiting family in the Midwest and we look forward to showing our child those special places someday. We also have fond memories of our trips to Europe as twentysomethings and hope to help our child do the same one day.

Our Promise

Thank you for taking the time to get to know us. We wish you all the best as you go through this process and hope that the decision you make brings you comfort and peace. We promise to raise our child with lots of love, patience, and kindness. We will teach him or her right from wrong and ensure he or she has the strength to be independent and try new things while knowing that we will always be there no matter what happens. Our goal is to teach the child about where he or she came from and that their birth parents chose adoption as an act of love. An open adoption will ensure our commitment of pictures and letters and we truly hope to share as much as we can with you about your child.
